

Mast Mounting Hardware

INTERNAL MOUNTING

Internal Mounting, or mounting through the vehicle's roof, is standard with the Will-Burt Telescoping Masts.

EXTERNAL MOUNTING

External Mounting, or mounting to the outside of a vehicle, is an optional mounting procedure provided by Will-Burt.

Ordering Information

Menu of Telescoping Mast Standard and Option Equipment

STANDARD WITH MAST:

- 1) determine size of mast (extended and collapsed). For example, model 7-42 is 7 feet nested and 42 feet extended.
- 2) determine the options you would like included with mast (refer to the menu above).
- 3) specify top interface, either antenna stub or platform adapter.
- 4) determine if you would like internal or external mounting.
- 5) call Direction Technology, Inc. to place an order.
